France introduces new measures to fight waste – significant impact on fashion industry

17 December 2021

In France, the adoption of the Climate and Resilience law, which follows the Anti-Waste Law for a Circular Economy, resulted in the creation of several additional environmental-related rules that affect the fashion industry, affecting the role of manufacturers, importers and distributors of textile and clothing products.

These laws introduce new requirements regarding waste and prevention, consumer information, reuse and fight against waste, spare parts availability, manufacturer liability and environmental or sustainability marketing claims.

Artemis Accords: New law for the moon and outer space?

17 July 2020

NASA has recently released the Artemis Accords, aiming to establish principles to govern civil exploration and use of outer space. DLA Piper's aerospace team explains what the Artemis Accords are, how they will be used and how they articulate with existing space law to possibly form a new law for outer space and the moon.
