The ensuing investigations can result in serious consequences. It is vital that companies take a holistic approach to the legal and regulatory environments in which they operate.

Our global team can help clients manage a crisis, provide guidance through an investigation (whether national or international) and provide advice on becoming fully compliant with specific regulations wherever in the world you operate.

CAPABILITES

Risk and compliance

Our team works with clients to ensure they are aware of developments in the law, their regulatory environment and the powers of the regulators. We have a proven track record of developing compliance programs tailored to industry and company needs. These are designed to inform, instruct and embed in all employees the complexities of governing laws, particular compliance vulnerabilities and the value of ethical behaviour.

Internal and regulatory investigations

Our team handles all types of regulatory investigations including those involving tax and accounting irregularities, financial misconduct, fraud, bribery, corruption, cartels and price fixing as well as independent internal company investigations and referrals from audit committees.

We are one of the few international law firms with a dedicated and substantial global team that is capable of dealing with the powers that underline regulatory investigations and enforcement in today's increasingly harsh regulatory environment. Our team comprises specialist investigators, experienced criminal defence lawyers and former regulators.

We also regularly undertake internal investigations advising on the appropriate scope and
